# Safety isolating transformer **EL 13/6**

### Standards

Safety isolating transformer to: VDE 0570 Part 2-6, DIN EN 61558-2-6, EN 61558-2-6, IEC 61558-2-6

## Advantages

Solder tab for free wiring

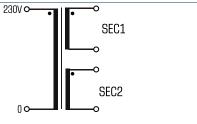

Very good corrosion protection and low noise thanks to  $\mathsf{BLOCK}\xspace$  IMPEX vacuum impregnation

Simple mounting thanks to robust metal footplate with oval slots

# Applications

Safety isolating transformer for the safe electrical isolation of the input and output sides. The transformer is suitable for creating SELV and PELV circuits because of the limit on the output voltage.

#### Sample application

EAC 🖯

Approvals

BLOCK Transformatoren-Elektronik GmbH • Phone +49 4231 678-0 • info@block.eu
