Motor reactor

MR3-AD200-485-0

Advantages

High damping of edge steepness

High damping of inverter switching frequency

Reduction of leakage current at low construction volumes

Long shielded cable lengths possible

High efficiency

Very good corrosion protection and low noise thanks to vacuum impregnation

Applications

Motor reactor for the limitation of the voltage peaks damaging to the motor insulation (dv/dt).

Standards

Output reactor for frequency converter DIN EN 61558-2-20, IEC 61558-2-20

Approvals

Motor reactor MR3-AD200-485-0
